

2011 ASHRAE Food Drive

Sustainability Project

Each year, ASHRAE selects a Sustainability Project for members to volunteer their time and services. This project traditionally is done for a non-profit organization that would significantly benefit from energy efficiency upgrades and improved systems.

Please help the Rocky Mountain Chapter of ASHRAE support the Denver Rescue Mission. As part of the 2013 Annual ASHRAE Society Meeting, the Rocky Mountain chapter has selected the Denver Rescue Mission for our Sustainability Project.

Acceptable Food Drive Items

In an effort to raise awareness about the project, and to help with a need of the DRM, we are asking members to donate non-perishable food items. The following items are particularly needed:

- Canned fruits
- Canned vegetables
- Stuffing mix
- Canned pumpkin
- Canned cranberries
- Instant potato mix
- Canned soup
- Peanut butter
- Canned tuna
- Macaroni and cheese mix

* For every item brought to the December 7th chapter meeting, one ticket will be given for a chance to win the monthly Research Promotion raffle.

Denver Rescue Mission

The **DRM** is changing lives by meeting people at their physical and spiritual points of need, with the goal of returning them to society as productive, self-sufficient citizens.

The Denver Rescue Mission is the oldest, full-service Christian charity in the Rocky Mountain region. Thriving today as non-denominational organization, no one is denied services because of gender, race, color, creed, national origin, religion, age, handicap, political affiliation, sex, sexual orientation, or marital, parental or military status.
