

STUDENT NIGHT SPONSORS

I hope your October is going well. The November Rocky Mountain ASHRAE meeting (Wednesday, November 6) is our annual Student Night where we have students from Wyoming, Colorado State, Colorado, UC-Denver, Metro State, and the Colorado School of Mines in attendance. This is the night we recognize students and hand out our annual scholarships.

One of the important aspects of student night is finding companies to sponsor students to attend this meeting so they do not have to pay for a meal. Sponsoring is extremely easy. If you want to sponsor 1...or 5...or 15 students (or really any number), we would appreciate it. Students are \$20 each. This year we are hoping to have over 35 students attend the meeting so we need more sponsors than we have had in the past. What do you get out of the deal?

- 1) Students attending the meeting will bring resumes. Are you looking for a full time hire or intern? This could be the very first time they are having contact with professionals in the HVAC industry.
- 2) Your company will be recognized as well as your company logo will be on the slide show that runs during happy hour and prior to the meeting.
- 3) Just that good feeling that you are supporting the future of the HVAC industry by sponsoring a student. . .or better multiple students!

If you are interested, please send an email to Craig Wanklyn at student@rockymtnashrae.com with how many students you would like to sponsor by November 1. You can pay for the students online on the Rocky Mountain ASHRAE website or by sending or bringing a check to the meeting on Wednesday, November 6.

Thanks in advance for your support of Rocky Mountain ASHRAE and specifically Student Night. It is greatly appreciated.
