

## Engineered Products Company

BOILER ROOM SPECIALISTS SINCE 1898

Engineered Products Company is a premier manufacturer's representative in the rocky mountain region. Our business focus has always been on boilers, service water heating, steam and hydronic systems and service. We are employee owned and operated.

We are seeking an outside sales engineer. Qualifications include a BS in mechanical or electrical engineering. 3-5 years of experience with steam and hydronic equipment sales or engineering. Must be oriented towards sales and customer satisfaction.

We offer a comprehensive compensation package based on experience and performance. Complete health, dental, vision, disability benefits and bonuses.

Equal opportunity employer
