

Mechanical HVAC / Plumbing Designer

We are a fast growing MEP Engineering firm looking for a Mechanical/Plumbing Designer. You MUST have experience with HVAC – Plumbing building system designs. E.I.T. and REVIT is a plus, but not necessarily required. Your resume will need to include 3-5 years of verifiable work experience.

Qualifications include:

You MUST have 3-5 years of experience with AutoCAD Mechanical Systems

Mechanical REVIT (bonus, but not required)

E.I.T. (bonus, but not required)

Familiarity with AutoCAD 2008, 2009, 2010, and 2013

Detail Oriented

Self Motivated

Strong Work Ethic

Strong analytical and mathematical skills

Ability and Attitude to work towards Project Management

If you are interested and qualified for this position, please respond with a cover letter and a resume with work experience included. You may be required to pass a background check.

RELOCATION EXPENSES NEGOTIABLE

We look forward to hearing from you!

Regards,

Bruce Pachikara P.E.
