Young Engineers in ASHRAE

Presents

HVAC on Tap

Educational Series

The Rocky Mountain ASHRAE YEA committee has organized a HVAC educational series of events for young engineers to enjoy a night of free education, dinner and networking. The educational programs are aimed to focus on basic fundamentals of HVAC design to help reinforce young engineers' design skills. The presentations will last about an hour while attendees enjoy dinner and there will be time for questions and discussions before and after the presentation. Information for the program is below:

HVAC on Tap - Program #2 Building Control System Integration

ATS Rocky Mountain will be presenting an overview on integrated building systems and the challenges associated with them. The integration discussion becomes increasingly relevant as the industry moves toward a common backbone of building control systems, IT infrastructure, lighting control, and packaged unitary controllers. To ensure a smooth execution of this process, ATS will also detail helpful design and collaboration tips. Details for the location and time of the program are below.

When: Wednesday, April 9th at 6:00 p.m.

Where: Breckenridge Brewery
2220 Blake St. Denver, CO 80205

*Thank you to ATS Rocky Mountain
for sponsoring the HVAC on Tap
program!*

Please RSVP by April 7th to YEA@RockyMtnASHRAE.com to reserve a spot. Please email with any questions in regards to this event or if you would be interested in sponsoring the next program for the educational series.
