Young Engineers in ASHRAE

Presents

HVAC on Tap

Educational Series

The Rocky Mountain ASHRAE YEA committee has organized a HVAC educational series of events for young engineers to enjoy a night of free education, dinner and networking. The educational programs are aimed to focus on basic fundamentals of HVAC design to help reinforce young engineers design skills. The presentations will last about an hour while attendees enjoy dinner and there will be time for questions and discussions before and after the presentation. Information for the first program is below:

HVAC on Tap - Program #1

Pump Selections and High Efficiency Pump Options from Bell & Gossett

The e3 department from McNevin Co. will be presenting on a new series of high efficiency products released from Bell & Gossett showcasing "The Power of E". The educational program will showcase these high efficiency products and how they can positively affect HVAC designs as well as what information is available on Bell & Gossett's website. The second half of the presentation will focus on the equipment selection tools available thru the Bell & Gossett website and will show how accurate pump selections can be made with the software available. Details for the location and time of the program are below.

When: Wednesday, February 19th at 6:15 p.m.

Where: Stoney's Bar & Grill
1111 Lincoln St, Denver, CO 80203

*Thank you to McNevin Co. for sponsoring
the first HVAC on Tap program:*
