Young Engineers in ASHRAE

Presents

HVAC on Tap

Educational Series

The Rocky Mountain ASHRAE YEA committee has organized a HVAC educational series of events for young engineers to enjoy a night of free education, dinner and networking. The educational programs are aimed to focus on basic fundamentals of HVAC design to help reinforce young engineers' design skills. The presentations will last about an hour while attendees enjoy dinner and there will be time for questions and discussions before and after the presentation. Information for the program is below:

HVAC on Tap

How To NOT Suck At Public Speaking

Larry Gelin, CFM Company

Public speaking is something that many of us avoid if we can, but the benefits of delivering a great presentation or a great speech can't be minimized. As engineers and business people, we often have to convey complex ideas and do our best to be engaging and entertaining. Even more important, can we deliver what an audience expects? Can we be memorable and worthwhile?

When: Wednesday, February 18th at 6:00pm.

Where: Breckenridge Brewery
2220 Blake St. Denver, CO 80205

*Thank you to CFM Company for
Sponsoring the HVAC on Tap program:*

Please RSVP by February 16th to YEA@RockyMtnASHRAE.com to reserve a spot. Please email with any questions in regards to this event or if you would be interested in sponsoring the next program for the educational series.

About The Speaker

Larry Gelin is the presenter for this topic. He is a sales engineer with CFM Company, where he has been for 12 years and he delivers many presentations for engineers and end users. In his prior career at Johns Manville, Larry delivered dozens of presentations to architects as part of their Spec Institute program. Larry holds a BSME from the University of Wisconsin-Madison and an MSME from the University of Texas at Austin. If Larry could change one thing about ASHRAE, he would see more local experts in front of our group instead of consultants and sales people from out of town. Could you be one of those local expert presenters?
